- Spanish-language access (https://coloradobiz.com/tag/spanish-language-access/) developed by credit union employees

Littleton (https://coloradobiz.com/tag/littleton/)-based Red Rocks Credit Union launched a digital banking platform (https://coloradobiz.com/tag/digital-banking-platform/) Oct. 27 with expanded payment and transfer options, account security features and Spanish-language access.

The platform combines payments (https://coloradobiz.com/tag/payments/), external accounts and transfers, allowing members to manage bill payments and move money between financial institutions without trial deposits or waiting periods. It also includes Zelle for sending and receiving money.

In a July survey, enhanced online payments and transfers and fraud and security alerts were the most-requested technology improvements, each selected by 41% of respondents.

"We didn't start with technology. We started with what our members told us was getting in their way," said Darius Wise (https://coloradobiz.com/tag/darius-wise/), president and CEO of Red Rocks Credit Union.

Security features include login protections, two-factor authentication and customizable notifications for balances and account activity. Members can turn cards on or off, report lost or stolen cards, request replacements, set travel notices and file disputes through the platform.

The system also provides free credit score access, credit alerts and tools to monitor spending and set financial goals. Members can link accounts at other financial institutions.

Account navigation, dashboards and other functions are available in Spanish, with translations developed by Spanish-speaking credit union employees.

The credit union tested the platform with employees, then expanded the pilot to their families. Feedback from those groups informed changes before the launch.

The platform builds on a partnership announced with Alkami (https://coloradobiz.com/tag/alkami/) in September 2025. That agreement added Alkami's digital banking and data and marketing services to the credit union's existing account opening system.
